English Language Programme

How does it work?

English Classes

Our English Language courses focus on improving speaking and listening, combined with written work to keep a record of students' achievement. Students receive 15 hours of teaching each week in enjoyable, interactive classes with no more than 12 students per class.

Courses are taught at four levels, with students assessed on arrival and streamed into classes according to ability. Each student receives a specially designed workbook containing modules and exercises based on their course. A certificate of achievement is presented to each student at the end of the course.

All teachers are CELTA (or equivalent) qualified.

Cultural Excursions

Visits to towns and cities in Britain give students many opportunities to improve their knowledge, fluency and confidence in English, both written and spoken, in real life situations. Our specially designed excursion worksheets provide a fun and informative way of learning.

A full-day and a half-day each week are allocated for excursions to world-famous landmarks and historical sites, where students can visit historically and culturally interesting locations, see the sights and even do some shopping.

A member of the centre team will accompany each group to provide support, information and the benefit of their local knowledge.

Adventure Activities

Every centre has an exciting range of on-site adventure activities such as climbing and abseiling, zip wire, quad biking, raft building and canoeing - all supervised by experienced, well-trained English-speaking activity instructors.

This means your students have the ideal opportunity to develop fluency and conversational English while enjoying fun-packed outdoor activity sessions.

Evening Entertainment

Every evening our teams will provide an entertainment programme filled with games, quizzes and other activities to keep the group occupied. There is also the potential for students to mix with English-speaking children and further develop their English skills.
